

Sergeant's Family Here Waiting For News

No Word On 1st Sgt.
Donald Barnes, Among
107 On Missing Plane

"We're still hopeful there's a little raft floating somewhere in the Pacific," Mrs. Donald A. Barnes, wife of the missing first sergeant told the Press-Record this morning.

Mrs. Barnes, who with her two school-age daughters, is living in a furnished apartment at 2318 S. Illinois avenue, said the last word she received was Friday when a telegram arrived telling her that 1st Sgt. Barnes was among the 107 passengers aboard the plane which disappeared Thursday night on a 1600-mile flight between Guam and the Philippines Islands.

"We're not going to give up hope," Mrs. Barnes said; and her two daughters, Donna, 15, a sophomore at Granite City high school, and Darlene, 12, a seventh grader at Prather Junior high school, agreed. Mrs. Barnes was joined over the weekend by her mother, Mrs. J. H. Beck, of McGehee, Ark.

She explained her husband with 19 years in the service is due to retire next year, and his "hardship" duty assignment to South Viet Nam for 13 months is a part of the regular Army schedule. It followed two years duty at the Granite City Engineer Depot where he was first sergeant of Headquarters Co. before being reassigned March 4. Before arriving at the depot, the family had spent over four years in Europe, last at Verdun, France.

Packed, Ready To Move
Mrs. Barnes said all of the family possessions, except for a few utensils, were packed for shipment to Maryland, where they have a home and plan to reside until Sgt. Barnes returns from South Viet Nam. "We moved off the depot and plan to stay here until the girls finish the present term of school."

Mrs. Barnes, 40, a native of Mesa, Colo., served in Europe during world war II and in the Korean War. The family arrived here in June 1960 and he was assigned to the 185th Engineer Group, becoming first sergeant of Headquarters Co. While stationed here and living at the depot, he attended local Masonic Lodge meetings.

New Fire Truck Driver Named By Venice Council

The Venice city council Friday night approved the appointment of a new fire truck driver, a \$664 lighting improvement for the McKinley Bridge, and the designation of April as "Clean-up, paint-up, fix-up" month.

At the suggestion of Mayor John E. Lee, the council approved the hiring of Thomas Britt, a member of the Granite City Engineer Depot fire department, to replace his father as driver for the Venice department. Thomas Britt Sr. has announced plans to retire at the end of the year.

The new driver, whose appointment was effective today, will be on duty from 7 a.m. to 7 p.m. Monday through Friday. The job pays \$455 monthly. During his off-duty hours, members of the volunteer fire company will fill the position.

After approving payment of bills and salaries for the first half of March, the council voted to accept a proposal from the Dron Electric Co. on installation of a sign light and four mercury vapor lights on the bridge. The project was previously approved by Harold H. Hanner, bridge consulting engineer.

The light is to be erected on a painted abutment separating the eastbound and westbound traffic lanes, illuminating the "all traffic turn left" sign. Cost of the installation was quoted at \$150.

Larger Lamps
The company's proposal also included installation of two new mercury vapor lights and two 10,000-lumen incandescent luminaires, and changing some existing 4000-lumen lamps to 10,000 lumen lamps.

Mayor Lee said he had been contacted by members of the eighth ward council, led by Blair Schuch, who asked the city's cooperation in sponsoring a clean-up campaign in Venice.

"I haven't talked to their faculty sponsors yet," Mayor Lee said, "but they are interested in cleaning up the alleys, yards, and so on, and planting flowers. They are interested in what we should cooperate with them."

First Ward Alderman James Miller voiced approval of the project, and the council on the month of April be set aside for it. "These are our future generation, and I think we should help them out all we can."

To Continue Work
Mayor Lee said he and the students are interested not only in the clean-up campaign itself, but also in urging residents to continue the work afterwards.

The council approved a request from the Lincoln high school students council for a \$100 block of Calhoun street for a street dance April 13. The mayor asked Leonard Griffin to barricade the street for the dance.

Work Is Stalled On 1000-Unit Project

Apartment For GC Elderly Boost Permit Total To \$942,000

Excavation for a drainage line was begun Friday, heralding the start of construction of a 100-apartment housing project for the elderly on a 1.22-acre lot extending eastward from the end of Edwards and East 25th streets.

Issuance of a building permit for the \$908,381 project raised last week's permit total in Granite City to \$942,671. Included were a new factory building for Diamond Plating Works, rebuilding of the fire-damaged building formerly occupied by the Woodmore auto agency, and home repairs and remodeling.

The permit issued by City Building Inspector Earl Housenquest to the Granite City Housing Authority for the project housing development in the 2800 block of Edwards street listed 18 residence buildings with 338 rooms. A nineteenth structure will house a 3240-sq-ft recreation hall, managerial office, kitchen and maintenance shop.

Brick Veneer, Stucco
Construction will be placed of brick veneer and stucco, and the contractor is the Practical Construction Co. of Detroit. Raymond E. Ryan, of Southfield, Mich., arrived here last week to assume his duties as superintendent of the year-long building project.

Though Friday's activity centered in the northeast corner of the tract, currently a sea of mud, the entire site will soon be alive with construction workers. Architects Henry Gabriel and Sylvester Dugleroff was in use near Edwards street, and another set of plans was being used by the contractor.

Excavation is being made for the water and sewer lines, which will run eastward toward the East Side Levee and Sanitary district.

Four, Six Units Each
Four of the buildings will have four units each, and the other 14 will have six units. All will be one-story, and all apartments will include living room and kitchen areas and bathrooms. Some will have one bedroom and others will have two.

A plaza near the recreation and office structure, located in the center of the development, will include benches and courts for children.

Granite City citizens can see the film "The initial viewers, who were treated to a preview of the film on the historic orbital flight, expressed amazement at the numerous activities and facilities made available through the district and commented on the brilliant photography."

A plan to place the film, which took two years to compile and ends with last September's dedication of Memorial Park fountain, is a valuable piece of community property. Everyone was able to recognize neighbors, friends, relatives and see their children at play and in recreation.

Brown said the film is booked throughout this week and part of next week and that it is being shown in the original plan private showing for Park Supt. Emeritus Ernest Slevings, now 85 years old.

Arrangements on other dates may be made by telephoning Brown at TR 7-3039 or TR 7-1787.

Changes In Plan
"There are a few changes being made in the original plan. It was outlined to the council when the citizens made their recommendations on Dec. 13, but these are minor," Vesci said.

He added that a revenue bond ordinance should be ready for presentation to the council two weeks after the March 26 session.

Second Filing, More Petitions In GC District

Scott B. Craycraft, 4012 Kirkpatrick Homes, city humane officer, filed this morning for election to the Granite City school board in the April 14 election.

He will be second on the ballot after President Robert N. Spengler. Three positions are to be filled.

Although two of the three incumbents, Herbert Bischoff and George Eubanks, have not obtained petitions, seven others have been given out, indicating the possibility of extensive filing later this week. The filing deadline in all three Quad-City districts is noon Saturday.

In the Granite City district, petitions have been issued to Ralph Busch, Mitchell, and Clayton Creek, 2641 Benton street. In addition, an unidentified man earlier obtained three sets and another unidentified man received two sets of petitions.

No additional filing or petitions have been reported since Madison district, where Oel M. Blumentritt and Frank L. Durner, incumbents, and Mrs. Muriel Byrne are seeking two posts.

In the Venice district, where residents are seeking two posts, Roy Mueck, Eugene Allen and Joseph Roberts are seeking positions now held by Salem, Mueck and Allen.

Liquor Licenses Renewed For Two Taverns In County
County liquor licenses were renewed last week at Edwards street by the Star Dist Club on Route 3 at Long Lake near Mitchell and the Irish Inn on Chouteau street.

Both taverns had been closed for three weeks by the county liquor commission that last month had taken under advice from the State Dept. of Revenue to revoke the licenses, but we did not penalize the proprietors by closing the places for three weeks, and the next complaint will result in revocation of licenses.

The licenses were renewed for William Edward Perkins for the Star Dist Club and 5262 Nankin street, and for the Bella Vista, and Mrs. Ludie Shastid for the Irish Inn.

After another last week, the county liquor commission renewed the license of Joseph and Mary Brown at Spuddy's tavern on Route 162.

"We're going to be forced by the state Sanitary Water Board to halt pollution of the Mississippi River, and with the program of the citizens' committee we can build the sewage treatment plant at a lower cost and with lower operational costs and with the savings do a large portion of the job of separating our present combined sanitary and storm sewers."

He can build the storm sewer system that the sanitary system has been in for years, but also will relieve the sanitary system and give it added capacity.

He stressed the urgency of proceeding with the revenue bond program of the citizens' committee in order to "keep Granite City from floating away."

10th Annual Campaign

The annual membership drive of the Tri-City Community Council Association will be held Monday, March 26, through Saturday, March 31, it was announced today by Raymond Hanley, president.

The campaign will be inaugurated next Monday with a kickoff dinner at the Snorgashord restaurant. Mr. Albert Froemling, campaign chairman, said 121 workers will be seeking new convert association memberships, plus the renewals.

Season memberships will be offered to students at \$3 each, while adult memberships remain at \$7 each.

This year, prizes will be awarded to the four leading campaign workers who succeed in enrolling the largest number of new members. First through fourth place prizes include a ceramic vase and \$15 cash, a ceramic fruit tray and \$3, a ceramic ash tray and \$3, and a highly fidelity record. Winners will be announced at the first association board meeting following the membership drive.

All of the ceramic work was created by Eugene Allessi, art director for the Granite City school district.

The campaign kickoff dinner will begin at 6:30 p.m. on March 26. Miss Mary Clewin is dinner chairman, and Mrs. Froemling has urged that as many renew memberships as possible be turned in that evening so work can concentrate on obtaining new memberships during the week of the drive, the association's 10th annual campaign.

Formerly known as Club La-Jo, the place is operated by Harry Brubaker, licensee.

Since the initial revocation, which also alleged vice activity, the place has been under additional surveillance. Participants in the raid included Sheriff George W. Smith, assistant State's Attorney John Gitcher, deputies and state troopers. Hearing dates have been set, but there have not been announced.

Perky Parakeet Perches On Sleepy Tomcat's Head
Parakeets are perky pets. And a daring one is "Chippie," a male parakeet, who is the head of a sleepy tomcat named "Tiger Tom."

They are the pets of 10-year-old Holly Stoval and her sister, Kay, 11, who are fifth and sixth graders at Webster school and daughters of Mr. and Mrs. Charles Stoval, 2404 Sheridan avenue.

Mr. Stoval told the Press-Record the bird and cat are not actually the closest of friends, but old "Tiger Tom" is just too lazy to care much. Only once he went after Chippie with a paw, but otherwise he's always just sleepy.

The familiar scene at the Stoval home is "Tiger Tom" asleep in the kitchen chair, with Chippie, a wicker rocker directly under the bird's cage.

Mrs. Stoval said Chippie, about a year old, gets lonely after the girls leave for school, and strangely seeks the companionship of "Tiger Tom" five years old, by perching on his head.

"Tiger Tom" doesn't stir a mate (7).

Climb On Truck In Rural Area; 3 Homes Entered, 9 Thefts

A delivery man for the Thompson Bottled Gas Co., Belleville, was robbed of \$84 at 7:15 p.m. Friday at Carver and Harrison streets, Eagle Lake Acres, by a man and boy armed with a revolver and either a rifle or shotgun. The money consisted of his cash collections that day.

The suspects are described as follows: 22 years old, dark complexion, 5'10", 140 lbs., dark hair, dark topcoat, light shirt, and armed with a nickel-plated revolver; 14 years old, dark complexion, khaki jacket, cap worn low over the eyes and armed with a sawed-off rifle or shotgun. Both are Negroes.

Harold Maxey, 35, Freeburg, Ill., told sheriff's deputies and Madison police that he had delivered bottled gas to a residence at 107 Hill street and backed his stake-body truck into a driveway across the street, noticing the two approaching men climbing on Hill street to Carver and then south on Carver, he accelerated when one of them reached for the truck body.

Just as he got to the street, I heard a tapping on the left door glass and looked up and saw a pistol pointed at me. I stopped the truck and was held up by the two," he reported. "Apparently one was up to the gas bottle and the other was on the driver's side and pointed his pistol at me. I tried to get out of the truck but they wouldn't let me. I climbed on top of my truck because I could get enough speed to leave the house behind."

The older one pointed his pistol into my side when I got out. He seemed to be turning me around while he took the money from my pockets. He told me not to look back and the younger one stood further away with the rifle or shotgun pointed at me.

After he got the money out of my pockets, he asked me for my wallet but would not let me get it out myself. I told him I had only checks, but he took it and looked away, and he took the checks. He told me to open the glove compartment, and when I did it made a noise and he took one jumped over the hood and I was told to get out of the truck.

The robbery, which netted two \$20 bills, two \$10 bills and the rest in \$1 bills, was reported from a McCambridge avenue tavern when Maxey reached there.

Two House Entries
Break-ins at two houses were reported over the weekend to Madison City police, but nothing was taken, the owners said.

George Jones of Troy told police he found the front door had been pried open at the home of his mother, Mrs. Stella Jones, 2617 Edwards street. He was unable to determine if anything had been taken. Jones said his mother has been out of town.

Last midnight, Ernest Van Gilder, 2110 Benton street, reported he had been gone about

PRESIDENT'S SAFETY TROPHY AWARD going to the local plant of General Steel Industries, Inc., in a ceremony conducted here last week. Left to right, are F. B. Barclay, local works manager; Walter Pfaff, chairman of the safety committee; Vice-President L. A. Kleber, who made the presentation; and George E. Odum, supervisor of safety. The trophy is awarded to a GSI plant annually by the corporation president, C. P. Whitehead.

Local General Steel Plant Wins Firm's Safety Trophy

The president's safety trophy, awarded annually by President C. P. Whitehead within the plans of General Steel Industries, Inc., was presented to the Granite City plant during a meeting last week of the general safety committee for an outstanding safety program in 1961.

The presentation is made to the firm's plant achieving the best safety record and was placed in competition in 1950 by Whitehead to add stimulus to the company's safety program.

Receiving the trophy for the local plant was Walter Pfaff, chairman of the safety committee, and others taking part in the ceremony were L. A. Kleber, vice-president, who made the presentation; F. B. Barclay, works manager, and George E. Odum, supervisor of safety.

In 1961 the local plant experienced 4.14 disabling injuries per million manhours worked—a low frequency rate, especially when compared with the national rate of 15.9 for the foundry industry.

At one period of the year the plant operated for 121 consecutive days without a disabling injury. The longest such period previously recorded at the plant was 113 days.

General Steel's local plant is considered one of the safest foundries in the world. It has attained that reputation through its outstanding safety program, which has the strong support of management and the full cooperation of employees.

The basic program, involving all employees, includes the operation of an employee safety committee which works directly with the "man on the job," supervision and plant management to promote safe working conditions and habits.

Children at the first meeting were Maford Morrison, Ronald Wilson, Michael Tondell, Ricky Couch, Larry Martin, Vickie Jackson and Anthony Szynski. Also attending were Optimists George Andrews, Robert Stein, James Turner, Charles Fisk, Jerry Tegel and Pete Tegel Jr.

Beauty, romance and history combine to make memorable a Magic Circle auto tour of Baton Rouge and the Acadian country. In the city's heart is the spectacular State Capitol, a masterpiece of architecture, completed in 1925 by Huey Long when he was Governor. Another civic pride is the campus of Louisiana State University with its 60 unorthodox buildings and the famous Tiger Stadium, a football temple.

There is a fascinating side trip north to Audubon Memorial State Park where the famed bird painter began his career. Across the Mississippi and through the serene Cajun bayou country are Opelousas, the ram capital, and Lafayette, city of flowers.

French-speaking Breau Bridge, famed for gourmet food

and hospitality, is typical of Acadians, exiled from Nova Scotia in 1755. South is St. Martinville, setting for Longfellow's immortal "Evangeline," with its great moss-draped, Evangeline Oak and lovely old St. Martin Church and its tiny cemetery where Emmeline Labiche, the real-life Evangeline, rests. Near by is Longfellow-Evangeline State Park with a museum of treasured relics.

Other tour highlights are New Iberia, known for its Sugar Cane Festival and showplace antebellum home, "The Shadows"; Avery Island and its Jungle Gardens with 14 miles of beautiful gardens, dense Chinese bamboo forests, a Buddhist temple, 800-year old Buddha statues, the ram capital, and Lafayette, city of flowers.

Wagner of Colton, was graduated from the North high school in Sheboygan, Wis., and is presently employed in the printing department of a San Bernardino firm.

The engagement of the couple was blessed Saturday at Resurrection Catholic Church in Fontana, Calif., by the Rev. Steven Bies C.R., and after the ceremony the couple entertained their families and friends at a party in the home of the bride-elect.

The show has been arranged for the Coolidge gymnasium this year due to the size of the attendance anticipated. Many were turned away last year, when the PTA-sponsored event was held in the school library.

A background garden scene and other stage decorations are being provided by the ninth grade art classes of Ronald Ward. They will follow the theme, "In a Spring Garden."

Firms participating in the program are Glick's, Holman's, Tops and Bottoms, Burdick's, No. 1, Lucille's, Schermer's, Truitt's, Fleischman's, Peers, Woolworth's, Rich's and Pauline's.

Slate-Luenstroth Nuptials Saturday At Normandy, Mo.

The wedding of Miss Janet Cleveland Luenstroth, a daughter of Mr. and Mrs. Harold Luenstroth, 7336 Country Club drive, Pasadena Hills, Normandy, Mo., and Ensign Dennis Y. Slate, whose parents are Mr. and Mrs. Irvin C. Slate, 2604 Benton street, took place at 8 o'clock Saturday evening at the Normandy Presbyterian Church.

Rev. Dr. Grant O. Jennings officiated, assisted by Rev. Vernie Barnett, pastor of Niedringhaus Memorial Methodist Church.

The wedding march was played by Douglas Schieter, organist, who accompanied the soloist, Miss Aida Godwin of Ferguson, Mo., in an appropriate program.

Attendants for the bride were her twin sister, Miss Janet Luenstroth, as maid of honor, and Mrs. Jane Rozsaszky, of Des Moines, Ia., another sister, and Miss Anna Guth of Ferguson, a college classmate, bridesmaids.

Ensign Slate had his elder brother, Irvin C. Slate Jr., as best man, and Richard Ruppel and Mike Reed, groomsmen. The usher corps consisted of Jimmy Luenstroth, the bride's brother, George Rozsaszky, a brother-in-law, Tim Peerman, of Konnet, Mo., James Clatworthy, Fayette, Mo., and William Schreber of this city.

The bride's gown was of pure silk tulle fashioned with a

scooped neckline appliqued with Alencon lace and pearls. The long, fitted bodice which came to points in the front and back had bracelet-length sleeves. The skirt, which fell in soft unpressed pleats, swept into a graceful chapel train. A bouffant veil of illusion was held in place with a crown of silk organza, rosebuds and tulle pearls and the bride's bouquet, a cascade, was made up of white carnations.

The bridesmaids wore flowered green sheath dresses of silk organza with bouffant overskirts. Veils and bows in their hair matched the dresses and they carried bouquets of white poms edged with green.

For her daughter's wedding, Mrs. Luenstroth selected a flowered silk dress and beige accessories. Mrs. Slate sr. was in beige silk and black accessories. Both mothers carried cymbidium orchid corsages.

A reception was held in the church parlors, and assisting was Miss Sharon Brown of Normandy, Mo., David Fleetwood of Springfield, Mo., and Miss Nancy Khalifah of Central College in Fayette, Mo.

The former Miss Luenstroth attended the Normandy schools and Central Methodist College where she became a member of Delta Pi Gamma sorority. She has been employed as a stewardess by a commercial airline and was formerly stationed in New York and Atlanta, Ga.

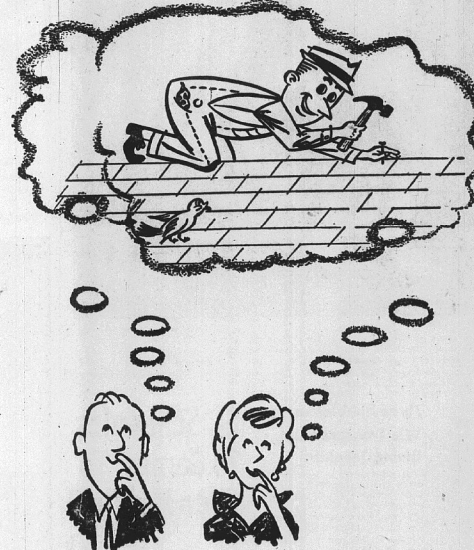

Ensign Slate was graduated from the Granite City high school and Central College where he received a B. S. degree in education. While at Central he became a member of Alpha Phi Gamma fraternity. After a honeymoon trip, he will be stationed at Glynnco, Ga., with the U. S. Naval Reserve Corps.

The rehearsal dinner was given Friday evening by the bridegroom's parents at their home.

ENTERS MASONIC HOME Mrs. John Costley, 2444 Cleveland Blvd., left Friday for Sullivan, Ill., where she entered the Illinois Masonic Home.

Maroons Shock Madison In Sectional Final, 71-68

Trojans Are Hobbled By Loss Of Freeman In 3rd Quarter; Loss Is First In 29 Games

"Oh, somewhere the sun is shining, and somewhere people shout, but there is no joy in Madison, the Trojans have bowed out."

With apologies to Mudville and baseball, Madison's Champion bubble burst here Friday night, punctured by Belleville's Maroons, who stunned most of a capacity crowd at Memorial gymnasium by upsetting the Greenmen, 71-68.

The Maroons thus became one of 16 teams who still survive in the state eliminations, and will play Centralia tomorrow night in the East St. Louis sectional. The Orphans beat Shelbyville 82-69 in a sectional final at Salem Friday.

Beaten 70-57 at its home court earlier by the Trojans, Belleville

the Trojan team, was whittled for his fifth personal foul with the score tied, 50-50. The quarter ended with Belleville on top 55-52, and the Maroons stretched their advantage to 61-52 early in the fourth quarter before Madison began a game, but losing, uphill struggle.

The Trojans cut the deficit to two points (63-67) with just over a minute left, but a basket by Roger Bechtold and two free throws by Gary Hearne boosted Belleville to a 71-68 lead.

With 30 seconds left, 4-6 Barry Jackson of the Maroons drew his fifth personal foul, and Belleville Coach Jerry Turner drew a technical for what officials felt was too violent a protest of the call. Turner said later that he had directed his remarks at his own hall players.

Bob Haynes missed the first half of a bonus free throw opportunity, and then sank the technical foul shot and followed with a basket for the 68-71 score.

Madison fouled twice in the last 20 seconds, trying to steal the ball as Belleville went into a stall, and the Maroons missed three straight free throws. But the clock and score were in their favor.

The difference was the Maroons' ability to "contain" Madison, an elated Turner said in the Belleville dressing room after the game, where a blaring tape recorder playing martial music and the shouting Belleville players made conversation nearly impossible.

"Against their press we always had our middle man open (either Jackson or Jerry Jovett). The game played it slow when we were picked up in the back court; they hit the big man in the middle and swung wide to the sides."

From left to right are Bob Haynes of Madison, Belleville's Barry Jackson (55), Cecil Bell (54) of Madison, Renn, Gary Hearne of Belleville (21) and Madison's Don Freeman (14).

Three Bubblemasters Win Treasure Hunt Diving Trophies
Members of the Bubblemasters adult diving club of Granite City took three of five trophies awarded yesterday at the conclusion of an underwater treasure hunt conducted at Little Grassy Lake near Carbondale by the St. Louis Area Scuba association.
They were Bill Bramman, second; Richard Griffin fourth; and George Theodorakis, fifth. John Rice of the St. Louis Scuba club was first and Al Rusehoff of the St. Louis club was third. Sixteen divers from the Alton, Granite City and St. Louis clubs making up the area association competed in the first organized dive of the year.
A compass course contest was canceled due to murky water, with visibility underwater limited to one foot. A picnic for club members and their wives was held following the dive.
Four members of the Bubblemasters made an exploratory dive in an abandoned pit mine near Pinckneyville during the return trip. The Bubblemasters plan a weekend dive at Table Rock Lake in Missouri April 20-23.

THEIR SEASON HAS ENDED, TOO, Madison's varsity cheerleaders, who followed the Trojans to the end of the basketball trail here Friday night. From left to right: Judy Borth, Jackie Shaver, Sheila Nicholas, Jackie Mosley, Kathy Boggett and Doris Ledbetter.

POLISHING THE HARDWARE won by Madison's basketball team this year is a task which MHS office secretary Miss Edna Mae McInn does not find unpleasant. From left to right are the Wood River regional trophy, O'Fallon tournament trophy, East St. Louis tournament trophy and the Midwestern conference basketball championship trophy, all kept in the office safe since they will not fit in the overflowing trophy case at the school.

Support Growing Here For County Zoning Program

Growing support for the proposed Madison county land use and zoning plan was reported today from the local Tri-Cities Chamber of Commerce office which has called upon all local organizations to adopt resolutions favoring the program. Copies of the resolutions are being mailed to members of the county board of supervisors to advise them of the sentiments of Quad-City area residents, and each organization also is submitting letters of transmittal with comments pointing to the need for controls over land use to protect property in the rural areas of the counties.

Local organizations which to date have adopted the resolutions are — the Madison Rotary Club, Tri-Cities Chamber of Commerce, Daybreak Opt-Mrs. Club, Tri-City Trades and Labor Council, Granite City Rotary Club, Quad-City Amvets Post 51, Granite City Real Estate Board, Granite City Optimist Club, Long Lake Amvets Auxiliary and Long Lake Amvets Post 187, Associated Retailers & Civic Association, Inc., Venice Lions Club, Quad-City Ministerial Association and Theta Theta Chapter of Beta Sigma Phi Sorority.

About This Question:

"I tell for this cut-rate auto insurance from a direct-writing insurance company with no independent local agent. When I had a collision loss, I found their adjuster trying to cut every corner on repairs to save the company money. Does anyone really think he saves money when he bypasses his independent local insurance agent?"

90-Day Jail Term For Youthful Shoplifter

A county jail sentence of 90 days was imposed on an 18-year-old Granite City youth who Friday morning changed his pleading to guilty in connection with shoplifting two diaries at Michael's Jewelry & Gift shop, 1842 State street, last Wednesday afternoon.

The youth, Harold Lee Graham, 18, of 2203 State street, had pleaded not guilty Thursday morning before Police Magistrate Gasparovic and then reappeared in the magistrate court Friday morning to change the plea.

A. E. Michel, proprietor of the store told the Press-Record a clerk in the gift shop advised him of a suspicious bulge under the youth's coat. When questioned by Michel, the young man tried to run out the door. He was grabbed by the proprietor, who put Graham in a chair to wait for police. A \$3 diary was found in the youth's jacket and a \$1 diary in his back pocket.

Graham's address was erroneously listed in the 2300 block of State street in Thursday's issue.

It has been apparent for some time that men's hat styles were due for a change. The narrow brim and the high tapes which we have all become so familiar with are now standard.

That change made itself evident some time ago, but only last season in any big way. If you'll remember, winter hats and lower crowns were being shown when you bought your last spring hat. The same trend has become general.

Every hat manufacturer is featuring the new adjustment, re-hats. Most men are welcoming the new style because it affords a welcome change from what they have been wearing.

Postponement Can Give Time For Groups To Begin More Active Support Of Zoning

Though the new postponement of hearings seems unfortunate due to the urgency of zoning for Madison county, it will afford a chance for further support to be organized. The result is an individual favoring zoning should now be given active support, including attendance at hearings when they are resumed.

More adoption of a favorable resolution by each group is not enough. The large number of such endorsements is encouraging, but it is essential that all proponents go a step further and cite the great need for zoning to other citizens and members of the County Board of Supervisors.

A grassroots campaign for zoning can be successful, for the fact is that zoning will help, not harm, this county's residents. Once the truth is known by residents, the adoption of zoning by some zoning force, the path to adoption of the ordinance will be cleared.

Hope for passage this year must not be discarded because there is no acceptable alternative. Unless Quad-City and other residents of Madison county speak out, a few obstructionists could succeed in killing the proposed law. With it would die the prospect of orderly growth, expansion of job opportunities, adequate housing, and the protection for home owners' and farmers' property investments.

One of the places zoning supporters should make themselves heard is the hearing within their township. Their presence and comments can thwart foes from continuing efforts to "pack" the meetings. By shouldering citizenship duties for a task vital to the future of the county, they can prove to County Board members that the public wants zoning.

Unique Venice Fire Truck, Designed By Firemen, Has Increased Hose Capacity

Venice residents can be justifiably proud of their new fire engine, which represents not only a major investment by the city but also inventiveness on the part of Fire Marshal Henry Devany and several of the city's firemen. The result is a unique vehicle described as the most modern fire-fighting apparatus anywhere in the nation.

A new hose handling system, utilizing 10x3-1/2-foot cartridges lifted into place with a hydraulic pump, is proving more convenient for the firemen and is enabling the truck to be restored to service in three to five minutes, compared to an hour or two under the old handling procedure.

Twice as much hose is carried, providing 1200 extra feet of line at a fire if needed. Two other cartridges not on the truck make possible immediate hose replacement at the station, resulting in quadruple the previous capacity.

The achievement reflects credit on members of the department and gives evidence of Venice officials' confidence in the volunteer firefighters' planning ability and ingenuity.

Denial Of Public's Fluoridation Wishes Depriving Area Of Relief From Tooth Decay

The comparison of children's teeth in Milan and Trenton, Tenn., showing 76% fewer cavities after a decade of water fluoridation, centers new attention on Granite City's dilemma—they have approved fluoridation overwhelmingly but still are stymied by city council inaction. The ten-year study also showed that no harm has resulted from fluoridation.

Denied relief from 60% to 76% of their tooth decay, local residents are suffering much needless pain and paying countless unnecessary bills for dental fillings.

Fluoridation approval is lacking in only three of the many communities served by the East St. Louis and Interurban Water Co.—Belleville and Swansea, where no full-scale explanation of the program has been attempted; and Granite City, where the council decided to let the people decide, and then turned around and voted down the voters' mandate.

Even more ironic, residents of most other municipalities in this area, including Madison and Venice, are denied the benefits of fluoridation even though their officials have acted favorably. This is because these cities are part of the same water system that serves Granite City, Belleville and Swansea.

43 Years Of Service By American Legion

As an exponent of military strength and love of country, the American Legion has been a leader in seeking preservation of a worldwide peace which honors the dignity of the individual. Quad-City posts and units, as part of the organization's 17,000 posts and 14,000 auxiliaries, rate a salute on the Legion's birthday for 43 years of service to this community, state and nation.

From its beginning at a caucus of U. S. expeditionary forces in Paris in March 1919, the Legion has encouraged the same spirit that carried our fighting men to victory—dynamic support of Americanism. On the home front emphasis has been placed on an increase in home ownership, streamlining of child welfare, and care for the disabled and aged.

Just for the record, we note that three Chicago precinct workers are serving jail terms for altering ballots in the November 1960 general election. Ballot erasures were proven. Whether any vote fraud actually occurred had been placed in doubt by a judge's blanket dismissal of charges against election workers.

"Gentleness, the fruit of the Spirit" (Galatians 5:22-23).

Gentleness has been defined as: graciousness, usefulness, excellence in character, a measure, kindness. Gentleness is Christian character in expression toward humankind.

True followers of Christ should not be sharp and bitter, but gentle, mild, courteous and soft-spoken. Christ is our example. He was sought by the poor, the multitudes. Because of His kindness, the crowd followed Him, and were taken into His arms for His blessing.

He only raised His voice twice—once when He called forth Lazarus. Death, an enemy, had claimed a friend and He raised him from the dead. His voice to call him from death, "Thou art dead, yet live!"

two hours and returned home to find the front door had been forced open. A rear window also was found open, and it is believed Van Gilder had frightened the intruders away.

House Break-In, Nothing Taken
Ida Davidson, 2817 Iowa street, told police at 9:50 a.m. Friday her home had been entered during the night, but nothing was missing. Entry was gained through an outside basement door, she said, after which a glass was broken in an inside door and it was unlocked from the inside.

Driver Training Car Theft
A car thief who wanted to remain inconspicuous ripped the large driver-training sign off the rear of the Granite City high school's special auto before taking it for an apparent joyride Saturday night.

The theft was discovered yesterday afternoon by James Coffay, custodian, who found an overhead door to the school garage had been forced open. The missing blue and white auto was located a short distance away outside the garage. Only a small amount of gasoline was used, the custodian said. The theft occurred between 5 p.m. Saturday and 7:30 a.m. Sunday. Two plastic side windows and a tire and wheel were stolen from the black foreign-made convertible auto of William H. Ashford, 1925 Second street, while it was parked in front of his home, he notified police at 8:30 a.m. Saturday.

Target Pistol Stolen
A 22 caliber target pistol was stolen from a glove compartment of a parked truck belonging to William Mathers, 2300 Nameoki road, who told police this morning the truck was parked at the trailer court where he lives.

A two-and-a-half-horsepower outboard motor owned by Marie Thompson, 5216 Nameoki road, was stolen from a shed at her home, she notified the sheriff's office Friday. A lock was broken on the shed. The motor was valued at \$100 to \$150.

Someone stole a battery charger from the Moto service station on Route 64 south of Madison. Sheriff's deputies were informed at 4 a.m. Sunday by the station attendant, Dick Raby.

License Plates Taken
Many Thelick, 2216 Madison avenue, reported to police Thursday afternoon that a set of new license plates, still in the envelope containing the registration card, had been taken from the front seat of her car.

Ralph Taylor, 2231 (rear) East 23rd street, told police Thursday evening the spare wheel and tire was stolen from his 1961 auto while it was parked in front of his home the previous night.

Jeff Thompson, 4381 Highway 162, reported to Granite City police this morning that while his 1958 car was parked on a church lot at West 21st street and Illinois avenue last night, the spare tire and wheel were stolen.

Tire, Wheel Stolen
Theft of the spare tire and wheel from the trunk of his 1954 auto while it was parked at his home Friday was reported to police by Ralph Macklin, 2952 Chicago street.

Address Listed Wrong
Miss Lois Cornett, 2807 Kirkpatrick Homes, informed the Press-Record today that an item in last Thursday's issue listed her address for Miss Jean Rutledge, who had reported the theft of a wallet and \$50. Miss Cornett said Miss Rutledge does not live at the address listed on the police report.

Veto And Sewers Head Agenda For Tonight's Session

Top item on the agenda for tonight's Granite City council meeting is Mayor Davis' veto of an ordinance adopted two weeks ago to restore the council's jurisdiction on the fourth Monday of each month as a regular meeting.

The council, when committees were revamped several weeks ago to eliminate the Southern Illinois University outline, decided then also to abandon the SUU recommendation for the fourth Monday of the month meeting to be observed for committee sessions.

Mayor Davis has said he believed the reservation of that date for committees would give the residents of the community a better opportunity to confer with the aldermen in an informal session rather than at an official meeting.

C. of C. Resolution Also to be presented is a resolution adopted recently by the Tri-Cities Chamber of Commerce urging council approval of the Dec. 13 drainage and pollution abatement recommendations by the Citizens Master Sewer & Drainage committee.

There will be no report available from the city council's Special Sewer Committee Chairman Frank Vesce, who said last week he will be out-of-town on a business trip for his employer. However, council discussion of the resolution is likely, as other members of the committee attended a meeting with the citizen group last Thursday night.

Notices are to be presented from Police Department Local 1347, Everett Kelly, president, and Fire Fighters Local 233, Leonard D. Wilson, president, requesting the reopening of contract negotiations; and two notices of intentions to file claims against the city also are on the agenda, presented by John P. Duggan, who was hurt in a car fall last Sept. 26, and Zelma Sumner, who was hurt in a sidewalk fall last November.

Routine reports and bills also are on the agenda along with the treasurer's and police magistrate's monthly reports.

The club has received tickets for a dinner dance of the Junior Service clubs of Illinois. Following the business meeting, guests invited by the members arrived and a "hat show" was held. Jobs For Youth Drive Opens In Quad-Cities Area

Mayors Leonard R. Davis, Stephen A. Maeras and Dr. John E. Lee today called on Quad-City employers to put the assets of about 130 local area youth to work in their firms.

Their appeal was made in a proclamation endorsing the nationwide "Jobs for Youth" drive being pressed locally by the Granite City office of the Illinois State Employment Service of which Malcolm A. Thompson is manager. Gov. Otto Kerner also has given his support to the drive.

Noting that employers face a growing shortage of qualified workers in the prime age groups, particularly in demand occupations, the mayors urged employers to tap the reservoir of job-hunting out-of-school youth. He pointed out that young people possess the qualities needed by every firm: a fresh outlook, ability to learn quickly and eagerness to do a job well.

Slogan of the campaign is "Put Youth on a Job — Today's Investment, Tomorrow's Profit."

"We call upon all local employers to fill existing trainee and other beginner job openings now and to make ready to fill the developing gaps in their work force by hiring trainable youth now. We also urge that employers avail themselves of the know-how of the State Employment Service in matching the skills and aptitudes of young beginners with their job openings," the mayors said today.

Happy Ending—Lost Watch Found, Handicapped Aided

The voice over the telephone from Granite City was distressed. "It's my husband's new gold wrist watch. My little boy was helping me fill a Goodwill bag and dropped the watch in when I wasn't looking. Could you find it for me? The Boy Scouts picked up the bag this morning."

While the telephone operator was taking the message last week, Goodwill Industries truck was unloading the results of the Boy Scout "good turn for Goodwill"—over 5300 bags, filled with an estimated 100,000 household discards of every size, shape, condition and variety. Somewhere in their midst was one man's wrist watch.

The sorting process at the Goodwill plant in St. Louis is fast moving, but careful. With the handicapped sorters alerted to look for a watch as they separated the clothing and other articles for processing, the story had a happy ending. Man and watch were reunited.

Large Staff Kept Busy
The wrist watch adventure was only a sideline in the hours of employment provided by the efforts of Quad-City scouts. Nearly 500 men and women depend upon their jobs at Goodwill to earn their living and maintain their independence.

One of these is a Madison resident, considered too old by other employers. "She is doing a useful job and earning her living at Goodwill because housewives took time to fill Goodwill bags and Boy Scouts organized a drive to get the needed materials collected for Goodwill," a spokesman for the organization commented.

"Another of the many Illinois citizens who work at Goodwill is a Glen Thompson, not much past scout age himself. He commutes from Columbia to his job at Goodwill — a job that profits from his vitality and intelligence, one of the jobs that doesn't need two arms."

Thompson's comment as he made his way to work through the cars piled high with Goodwill bags was: "If it takes Boy Scouts to do it, let's see if we can find some more. Those boys in the Quad-Cities ought to be here to see how many people they've helped."

Headley of Southern Illinois University's southwestern campus, the chorus group presented the difficult Stravinsky's Mass and other selections with the orchestra, with Stefan Bauer-Mengelberg, conducting.

Chiropractors Meet On Proposed New Hospital

Nine chiropractic doctors from throughout the area attended a luncheon meeting with Dr. E. W. Walton Thursday to discuss the 50-bed Walton Chiropractic Hospital which is planned here.

Those attending, who would serve as staff members of the new chiropractic center, were shown drawings of the proposed building by Henry R. Gabriel, architect for the project. Staff duties and assignments were also discussed.

Maurice Daley, attorney, explained to the visitors the proposed corporation which would operate the hospital. Work on establishing the corporation is currently under way, he said.

Dr. Walton still is seeking a site for the hospital, a \$250,000 site of modern design which he says will offer facilities unequalled in the two-state area. He dropped plans to erect the building at Wabash avenue and Pontoon road when residents of that neighborhood opposed a zoning change which would have been necessary.

Attending the meeting were Doctors John R. Vasiloff and Walter B. Hedke, Granite City; J. E. Harvey of St. Louis; John Engelman of Highland, O. E. Burke of Alton, S. A. Plank of Wood River, L. L. Hertenstein of East Alton, R. W. Weir of Edwardsville, and Donald R. Howells, Collinsville.

New Postal Van In Service In Madison

A redesigned postal truck which should save Madison mail carriers on "mounted" routes considerable time and many steps was placed in operation last week.

The half-ton van features unique right-hand drive and a right-hand door which enables carriers to deposit mail and parcels in roadside mailboxes without dismounting.

A 10-year-old truck which the new vehicle replaces required the driver to step out at each delivery spot, since it was equipped with conventional left-hand drive.

Madison Postmaster Harry Johnson said the new truck "will save steps and time, but how much we don't know yet." The van is in use from 7 a.m. to 6 p.m., six days a week.

Other features of the new truck include automatic transmission, a unique accelerator operated laterally by the driver's right foot, a safety belt used in warmer weather when the cab door remains open, and a sliding rear door which disappears inside the roof when parcels are to be unloaded or loaded at the post office.

Half the size and weight of the truck formerly used on the Madison "mounted" route, the new van has just as large a parcel capacity, Johnson said.

SPEDIER POSTAL SERVICE to customers on a "mounted" route in the Madison rural area will be provided by new mail van put into operation last week. Half-ton truck has right-hand drive and a door on the right side, enabling the driver to deposit mail and parcels in the mailboxes without dismounting and walking around the truck, as was the case with the old vehicle. Here, Madison Postmaster Harry Johnson, posing as a "mailbox," and driver Henry Sanders demonstrate the vehicle.

Girl Scouts Preparing To Start Cookie Sale Friday

The first annual cookie sale of River Bluffs Girl Scout Council will begin March 23 at 3:30 p.m. and continue through April 2, according to an announcement by the local cookie chairman, Mrs. John Koester, who represents District Four. Hundreds of local Girl Scouts and Brownies will participate.

This year, instead of taking orders for the cookies for future delivery as in the past, the girls will sell directly and collect at the same time. The longer period of time will allow the troops to realize more from the sales.

IPC Points To Danger Of Posters On Poles

It is a few weeks from election time but the people concerned with employee safety at Illinois Power Co. already have started campaigning.

Their election-year slogan is "Keep posters off of utility poles."

"What happens is this," explained Steele Gaston, IPEC's electric distribution superintendent. "Somebody gets the job of tacking up a candidate's posters all over town, and they figure all our wood poles make an ideal showcase. After those posters are torn off, the weather takes care of them, the tacks remain as a hazard to Illinois Power line-men."

If a line-man's climbing hook hits a nail or tack head, he stands a good chance of "burning the pole" - that is, he slides down while still tied close to the pole with his safety belt. Gaston said signs that are placed too close to poles.

"You can imagine what would happen if a line-man fell 10 or 20 feet and landed on a metal sign next to the pole," he added. Local city officials are cooperating by setting signs in safe locations, but the problem becomes acute as the available sign locations vanish or busy streets and main intersections, Gaston said.

Eschbacher Speaks To Noonday Optimist Club

Members and guests attending the Noonday Optimists meeting at the Elks Club Thursday heard guest speaker Joseph Eschbacher, of the Bell Telephone Co., discuss the company's modern scientific achievements, including the solar battery, the Nike missile family and the transistor, for which three Bell scientists were awarded Nobel Prizes.

Guests were Frederick Fahnestor, Rev. Leroy Pittman, Rev. Charles Chadwell and John Anselm of Collinsville. Program Chairman Claude Cochran opened the meeting attended by 40 persons. The Optimists will hold a joint meeting next Thursday with the Granite City Rotary Club to discuss farm-urban relationships.

Plan 4 Radiation Test Stations In Madison

Four radioactively monitoring stations have been tentatively designed in Madison to conform with new federal civil defense requirements. Madison CD Director Harry R. Johnson announced today.

Locations are Madison high school, Dunbar grade school, the Madison post office and the CD headquarters in the basement of the Madison recreation center on Seventh street.

In the event of a nuclear attack, each station would be manned by two staff members experienced in using meters and counters to check the level of radiation.

Federal standards list eight such stations for a city the size of Granite City and four for cities like Madison and Venice. With 100,000 to be set up in the U.S., readings would enable radioactive fallout to be plotted accurately by government officials.

Communities complying with the plan will receive new metering equipment to be stored at each station.

Awards Derby At Cub Pack Eight Meeting

Cub Pack Eight, sponsored by the First Presbyterian Church, held a monthly meeting and a pinewood derby Thursday evening at the church, with John Helton, cubmaster, in charge. Awards were presented.

The opening ceremony was by Mrs. Mary Darnier's den. Den Three and Helton greeted the guests. Cub Pack 108 from McKinley school. He awarded bobcat pins to James Newton and Simpson, David Roulund and Roulund and Larry Fuffine and a wolf badge to Steve Stagner.

Bobcat pins of Richard Howell, Jerry Mattin and Gary Stith were turned in a ceremony recognizing a good deed by each boy. Other awards were presented to Ricky Floss, Richard Lasko, Randy Fowler, David Spalding, Eddie Mullins, Eugene Bromenski and Mike Mohley; a year pin to Mike Burd; two-year pins to Rickie Niesporek and Brad Reinhardt; and Webelos patches to Bruce Evans and Dan Schweitzer.

A candlelight graduation ceremony honored Russell Gerlich and Mike Burd. Eugene Short acted as starter for the derby, Vern Sappington as scorekeeper and John Lemmon and Halden Ralls as judges. Winners were David Spalding, Den One; Mike Bobley, grand winner and winner of Den Two; Norman Siem, Den Three; Gary Stith, Den Four; Jay Smith, Den Six; Steve Niesporek, Den Seven; and Bruce Evans, Webelos.

The "best looking car" award was won by Walter Jones of Den Seven. Helton presented trophies to each winner, and announced the theme for the April meeting, "Cub Scout Troubadours." He explained that troubadours were jugglers, singers, dancers and comedians who traveled from one place to another in olden times.

The meeting was closed by Den Four under the direction of Mrs. Mary Brown. The April meeting was for passing a stop sign at 21st and State streets. He posted his driver's license as a bond.

Stoo Sign Arrest

Edward W. King, 48, of Collinsville, was arrested Thursday afternoon for passing a stop sign at 21st and State streets. He posted his driver's license as a bond.
